

Your Irish genealogy is waiting to be discovered.

What better way to celebrate St Patrick's Day than by making a start on your Irish and Scots-Irish ancestral quest.

With over 50 years' experience of serving Irish people everywhere, let the Ulster Historical Foundation help you begin your journey home.

*About the organisation –
Ulster Historical Foundation*

The Ulster Historical Foundation is a non-profit organisation (Charity Ref No XN48460) founded in 1956 to promote interest in Irish genealogy and history, with particular reference to the historical nine county province of Ulster. The Foundation is one of the leading genealogical research agencies in Ireland and a major publisher of historical, educational and genealogical source books.

Where is Ulster?

Ulster is the northern most province of the island of Ireland. It is composed of the six counties of Northern Ireland – Antrim, Armagh, Down, Fermanagh, Londonderry, and Tyrone – and the three border counties of the Irish Republic – Cavan, Donegal and Monaghan.

Why Ulster?

From the Anglo-Norman invasion of Ireland in the twelfth century (c. 1169) until the end of the Nine Years War (1603), Ulster remained the most Gaelic of all the Irish provinces. From the Ulster Plantation (c. 1610) to the present day, it has become the most culturally diverse part of the island. The clash of cultures, political doctrines and religion – the maelstrom that was seventeenth century Ireland – has bequeathed to Ulster a rich historical narrative: creating a distinct heritage as captivating and intriguing as the brooding and dramatic landscape itself.

Our speakers will be able to offer participants practical tips about Irish and Scots-Irish research. The event will include three presentations which explore how to use the sources for Irish research, the story of the Scots-Irish migration to America, and recent developments in online records for Irish genealogy. The afternoon seminar will also include time for a question and answer session. The event is aimed at beginner and the seasoned genealogist alike.

The presenters are from one of Ireland's foremost genealogy research organisations and publishing houses and they will give advice on what to do and where to go next.
